- She was a fantastic teacher, always available during office hours, had a great sense of humor, and was an interesting, informative teacher. One of the best at Yale.
- Professor Alexandrov is the only reason that this class was not torture. I took it at 9:25 am MWTRF and she made the class generally enjoyable and worth getting up for. If you are going to take this class, I highly recommend taking it with her.
- Professor Alexandrov is an AMAZING professor. She kept us excited and engaged in the material, and explained everything clearly and sufficiently. She took great care to cater to our specific needs when it came to subjects we didn't understand or needed to spend more time on, and she balanced the time spent on culture/vocab/vocabulary incredibly well. Again, I cannot stress enough how wonderful this professor is, and how grateful I am to have had her for Spanish 120.

- Professor Alexandrov was a great teacher. She was able to answer almost all of our questions. She was passionate, energetic, and willing to embarrass herself to keep the class awake at 9 am. She did a great job of facilitating discussion and making sure the whole class participated. Finally, the part that I think speaks best to her teaching ability was how she conducted oral exams. She was able to be professional and conduct the exam, while still making a few jokes and smiling to make us a little more relaxed. I really can't think of any weaknesses. I guess I would have liked to see her have us have more discussions to practice our grammar, rather than just doing grammar exercises, but overall I had a great time in her class.
- Couldn't have had a better teacher for Spanish 02. Nice, enthusiastic, and had a wonderful mastery of the Spanish language. Seemed to have a pretty good understanding of our level of speaking.
- She is awesome, full of energy even for a 9:25 daily. I highly recommend her.

- Sybil Alexandrov is a completely wonderful teacher. She is very good at explaining things, and is also very caring and supportive. I always try to be thoughtful in my course evaluations and suggest good improvements, but I really can't think of any in this case.
